## Why Choose?

# PassionCare

A team with passion always wins

### Why Work with Passion Care?

At Passion Care, we offer employment for Temporary Nurses, Permanent Nurses and HCA's throughout the United Kingdom. Perhaps you fancy a change of direction in your career, or maybe you are in full time employment but would like a new challenge. Even if you are returning to work after a career break, we welcome you to join our friendly and supportive team.

**Whatever your situation, we can help and it won't cost you a penny!!!**

### **Focus**

We at Passion Care focus our efforts for the provision of our service, by using dedicated account managers. Our consultants work on an individual client basis to ensure you receive the best support possible. They will work with you to access all areas of Temporary Nursing Supply rather than just specialising in a particular area of skills. This provides you with a dedicated expert who will work hard to ensure they clearly understand your hospital and the staff requirements, as well as the nurses you have working with you.

### **Compliant**

We are a very compliant organisation. This could be important from an insurance point of view should ever an incident arise. Passion Care has never been involved in any insurance or litigation issues since it was established in 2009.

### **Quality**

The Passion Care team believe that by supplying quality emergency staff, we help to protect the morale of the permanent staff employed by our clients. We believe that this could help to reduce the turnover of permanent staff.

### **Understanding**

We understand the pressures, both financially and in relationship to fulfilment of temporary staffing requirements put on NHS and private hospital wards to deliver the highest standards of patient care, whilst maintaining efficiency and cost effectiveness.

### **Reliable**

Because we work swiftly and enthusiastically to find the specialist nursing professional you're looking for, we'll find you the right person, or people, with the skills to match the opportunities you have – quickly and without fuss
